(a) It will be observed that the several classes of New Castle County (white, free colored, and slave) exceed the total of the county here given by 2. The error comes from the original return of the marshal in respect to this county. It is impossible to ascertain by reference to any printed or written

document whether the error is in the items or the totals. The totals of the county and of the State have, therefore, been allowed to stand as they were printed in the official census of 1790. In Table I the items have been assumed to be correct, and the totals, 19,698 and 59,096, have been taken to be the correct totals of the county and of the State.
