(\*) All other persons, except Indians not taxed.

(a) The tables for New York, as published in the official census of 1890, are grossly incorrect; they contain typographical and other errors in nearly every county; they duplicate some returns and omit others. The above columns of 1890 were directly obtained by a careful count from the original manuscript returns on file in the Census Office. As the table at 1890 did not balance, that is, as the sum of the items of the total line of the State exceeded by 153 the total of the State as printed, and as the

table for 1800, above published, does balance, it follows that the sum of the variances at each class is 133 less than the variance at the aggregate. See note (Z.) page 4.

(b) Clinton and Essex opposite Clinton.

(c) At first Tryon; in 1784 name changed to Montgomery.

(d) Parts of Herkimer, Montgomery, and Oneida, provisionally annexed.

(c) At first Charlotte; in 1784 name changed to Washington.
